

TTS312-MAG ECONOMICAL TRIPOD TURNSTILE

The TTS312 semi-automatic mini tripod turnstile is a specialized pedestrian gate designed for installation at various entrance points. Equipped with an access control reader, its primary function is to diligently manage and restrict unauthorized access, ensuring that a warm and inviting atmosphere is maintained at the location. It's important to note that this turnstile is specifically engineered to permit the passage of individuals only, and it does not accommodate the passage of luggage or larger items. Remarkably, the TTS312 boasts the smallest size while delivering the most effective anti-tailgating security among all available pedestrian gate options, making it an excellent choice for compact spaces that require stringent access control.

Features of TTS312-MAG Economical Tripod Turnstile

- ✓ Waist-High Access Control (Indoors)
- ✓ Compact Design for Limited Spaces
- ✓ Semi-Automatic Arm Operation
- ✓ Cost-Effective for Moderate Foot Traffic
- ✓ Dual-Layer Anti-Tailgating Security
